WARRIOR Automatic Drum Clamps for Fork Lift Trucks

WARRIOR Automatic Drum Clamps fit quickly and easily onto the forks. They are secured via hand screws. Once fitted, the drum clamp will automatically pick up, transport and deposit drums without the driver needing to leave the truck.

The drums are held in position by using their own weight to tighten the arms. When deposited the arms of the clamp simply slide away from the drum.

Available for Steel 210 litre Drums in either single or double drum configuration and now the WRDG50 for Single Plastic Drums.

WRDG20

WRDG50 with plastic drum
